Good Afternoon,

I know I have spoken with many of you already, but I just wanted to send out a general update with information regarding the 2020-21 snow removal season. The County put a bid for snow removal services and was getting ready to award new 5 year contracts, but due to the Creek Fire the bid was cancelled and no contracts were awarded. At the time of this decision, Shaver was still under heavy threat from the fire and the County did not want to award contracts to a vendor who may not have been able to provide services after the fire if their property/equipment was damaged. Next year the County will once again go out to bid and award 5 year contracts for snow removal.

This season the County reached out to the contractor who did snow removal for your area last year to see if they would be willing to sign a one year contract for snow removal services and all contractors agreed to extend services for a year. The contracts are being issued through Purchasing, and due to the Purchasing Managers spending authority, the contracts for this season will not start until December 1st. For the month of November the contractors are still available for snow removal services. If a storm hits and the snowfall is over 3 inches, the contractors all have the ability to reach out to me and get permission to provide emergency snow removal services.

Please feel free to give me a call if you have any questions.
